İnsan Histoloji Mikroskop Preparat Seti (slayt seti)

Histoloji mikroskop preparat seti (slayt seti), insan vücudundaki çok çeşitli hücreleri, dokuları ve organları gösteren yüz adet hazırlanmış mikroskop slaytlarından oluşur. Preparat seti kapaklı bir slayt kutusunda sunulmaktadır.

Maxilab Biyoteknoloji, tüm organlara ilişkin İnsan Dokularının Histolojisinin mükemmel öğretim preparatlarını (slaytlarını) sunar. Histoloji, vücudun normal yapısını ve patolojik süreci anlamının temelini oluşturduğundan, bu slaytlar diş hekimliği, tıp, biyoloji, eczacılık ve paramedikal öğrencilerinin öğretimi için son derece yararlıdır.
